

Sign of Peace

A Social Script

At Mass, when the priest says it is time to share a sign of Christ's peace, people will shake hands with the people next to them. When they shake hands they say, "Peace be with you."

People like to shake hands gently and just for a few seconds. Shaking hands shows that you are happy to meet or see someone.

When the priest says it is time, I will gently shake hands with the people next to me while I say, "Peace be with you." I will stop shaking their hand after I finish saying, "Peace be with you." This will show people at Mass that I am sharing peace with them.
